## EBACE 2009 Release

### Banyan Air Service Returns to EBACE

Fort Lauderdale, FL – Banyan Air Service based at Fort Lauderdale Executive Airport, Florida returns to EBACE 2009 (booth # 227) as a co-exhibitor with Avfuel Corporation, Duncan Aviation and Fargo Jet Center.

Paul Rose, VP of Technical Sales and Brian Wilson, Director of Avionics, will represent Banyan again this year at EBACE. Since last year's convention, Rose and Wilson have traveled throughout Europe and the Middle East. In addition, they attended the MEBA Convention in Dubai in November 2008 where they signed a tentative agreement with Odyssey Aviation to outfit five Citation Sovereigns with high speed data. This was in addition to projects already completed on Boeing 747 and BBJ models in Europe and the United States.

“EBACE is an excellent opportunity for us to promote our world-class FBO services, avionics and maintenance services to the European marketplace,” states Wilson.

Banyan Air Services has been consistently ranked as a top FBO in the United States in surveys conducted by *Professional Pilot* and *Aviation International News*. Banyan is a 24-hour full-service fixed base operation and caters to domestic and international aircraft owners, corporations and governmental agencies. Banyan's customer support team assists with fuel and ground services, gourmet catering, hotel reservations, on-site Hertz rental cars and Bahamas and Caribbean travel assistance. In addition, Banyan offers hangar space to accommodate aircraft up to a Global Express and United States Customs is on the field and open daily from 9:00 am – 9:00 pm.

Banyan's aircraft maintenance department is both FAA and EASA approved and offers aircraft maintenance services, including heavy turbine airframe and engine maintenance, structural repairs and modifications, interior refurbishment and exterior painting. The heavy maintenance facility specializes in King Air, Citation, Hawker and Learjet inspections.

Banyan's avionics department offers avionics installation and services for all turbine aircraft up to and including large corporate aircraft such as Gulfstreams, Falcons, Challengers and Boeing Business Jets. In addition, Banyan offers a mobile avionics team with international experience for on-site installations. Services include cockpit upgrades to flat panel displays, multi-regional TV systems, high speed data with WI-FI, and advanced entertainment systems. The avionics department is also FAA and EASA approved and is an authorized dealer for all major avionics manufacturers.

Banyan has been in business for 30 years and currently employs over 150 teammates. For more information, visit booth 227 or visit [banyanair.com](http://banyanair.com).
